EDUCATION

B.S. in Computer Science
University of Victoria
Graduated 12/24

RELEVANT COURSES

Algorithms and Data Structures
Computer Networking
Computer Architecture
Operating Systems
Software Development Methods
Object-Oriented Software Development
Software Testing
Design and Analysis of Real-time Systems
Analysis of Algorithms
Fundamentals of Programming ||
Human-Computer Interaction
Database Systems
Data Management
Data Mining
Machine Learning
Introduction to Artificial Intelligence

TOOLS & SKILLS

Languages
Python
C
C++
Java
JavaScript
SQL
Mars MIPS Assembly

Concepts
Git
Vim
Scikit-learn
LaTeX
WordPress
MS Suite
Learning Theory
OOP Principles

Tools & Frameworks
React
Node.js
GraphQL
Express.js
MongoDB
PostgreSQL
SQLite
Apollo Server
REST APIs
Tableau
Git
Vim
Scikit-learn
LaTeX
WordPress
MS Suite

Skills
Data Analytics
Power BI
Machine learning
Unix
Operating Systems
Databases
Math
Numerical Analysis
Statistics
UX
AWS

SUMMARY

I am eager to bring my passion for technology and problem-solving into a professional environment. My academic journey has equipped me with a strong foundation in programming languages like Python and Java, machine learning, data structures, scalable project development, and technologies such as PostgreSQL, SQL, React, and HTML/CSS.

Through hands-on projects, showcased on my GitHub, I've applied these skills to tackle real-world challenges, refining my expertise in software engineering. I am particularly excited about contributing to innovative projects where I can make an impact while continuing to grow and learn.

I am commitment to continuous learning, and I have a problem-solving mindset. I am motivated to collaborate with forward-thinking teams and contribute meaningfully to the ever-evolving field of computer science.

WORK EXPERIENCE

Data Analyst Intern
03/23 – 09/23 / Chicago, IL

Pamway Logistics
- Data integration and analysis of real-time freight data.
- Cleaned and prepped data from clients using SQLite, improving data integrity by approximately 15%.
- Learned the basics of online marketing and managed social media campaigns, Helped increase engagement by approximately 10% in 3 month period

Software Development Intern
07/22 - 08/22 / Bitola, North Macedonia

iSource Macedonia
- Internship at web-dev based company, solutions to non-core business problems
- Learned web development in React.js
- Worked with people from a different country, often having to speak Macedonian
- Obtained a certificate of completion

Software Developer
01/21 - 4/21 / Seattle, WA

RecruiterPolls
- Poll management platform for technical recruiters, where recruiters can access their polls from a central dashboard
- Designed User, Post, and other schemas for PostgreSQL database
- Led design meetings in determining the use of non-relational or relational databases

PROJECTS
See GitHub for details
- Hospital management system database design and basic user interface
- Linear Regression and Medical Insurance Cost Prediction
- Text Data Classification and Gaining Insights from Textual Data
- The Palmer Penguins dataset data exploration
- Data Mining
- Web Scraper
